

E-blocks™ switch panel

8 push-to-make E-blocks switches

EB007

- E-blocks compatible
- Low cost
- 8 push-to-make switches
- Upstream and downstream connectors

This simple switch panel contains 8 push-to-make switches – one for each line on the E-blocks port.

This board contains both an ‘upstream’ E-blocks connector (for connection to the programmer) and a ‘downstream’ E-blocks connector which can be used to connect to other E-blocks, hence forming an 8 line bus.

- 1 E-blocks downstream connector
- 2 Power connector
- 3 Switches
- 4 E-blocks upstream connector
